As a local pioneer in this educational program for toddlers, the Glen Rock Community School designed Mom & Tot to provide toddlers with their first exposure to a teacher and peer group in a non-threatening environment that includes a parent or caregiver. This is a special time for toddlers. The 18- to 30-month-old child is entering an important developmental stage. Speech and motor skills, and social and emotional skills are developing rapidly. The Mom & Tot program is designed to encourage growth in these areas through play and group interaction, while providing parents or other caretakers a forum for exchange of ideas and information.
